The election of municipal officers will occur on the third Friday of March, which affords an interval of about three weeks for the selection of candidates for the various positions. The Republicans tive displayed great magnanimity in this respect With a decisive majority for their party in three wards, and nearly one hundred in the city at large, that have fairly divided the official honors with their opponents at every election There was a triangular contest for the Mayor

On Saturday night last, a few scat turing flokes of snow, accompanied with sleet, were the formationers of a storm which for the mount of snow that fell and the hapeding of travel, was unequalled by any previous one of the winter During Sunday night and the greater part of yesterday the storm continued with but uttle intermission, blocking up the callroads and ondering pedestrianism around town anything ut agreeable. Yesterday afternoon the snow had fallen to the depth of from twelve to eighteen inches, and all business of an out door character, excepting that of an urgent nature, was suspend The streets were slmost descried, and the few persons who did venture out burried along with as much calcuty as the depth of snow would There was a steady wind blowing all liv and the light snow was caught up and driftmaking the sidewalks away from the business portions of the city next to impassable. The New Hampshire Election.

N w Hampshire elects a Governor and fu State ticket on the 10th of March, which is the first general election of 1868. As the Republican majority list tear was but 3,146 the Democrats will make a stranuous effort to overcome it in the ansume contast, and have already begun an energetic can mes.
